CLIENT SERVICE CHARTER

FOREWORD

This Client Service Charter has been developed to track efficient service delivery and represents the framework of the district in the delivery of services to residents. This will help to further facilitate the standardization of the services delivered and communicate to residents the exact services that the district delivers. It highlights the service standards that the district is committed to delivering to residents and outlines the complaints and grievance redress process residents must follow to resolve challenges.

With this document, the district will be able to communicate to residents' vital information about what the district commits to do, how to contact the district, what to expect by way of service standards, and how to seek remedy for unsatisfactory service. It will enhance the participation of civil society and interest groups in the management of public finances as well as provide transparent mechanisms for contact, accessibility and complaints.

Another fundamental reason for the development of this Charter is to ensure that the activities of the district are open and transparent to resident to promote accountability.

Our expectation is that residents who engage the district are served in line with our values of being professional, ethical, efficient and responsive. Our commitment as a district is to ensure that we provide the highest standards of excellence in client service delivery towards a successful implementation of our Medium-Term Development Plan (MTDP) and Annual Action Plans (AAP)

We welcome your feedback as we work together to create a customer-centric culture and to deliver value to you: **our residents.**
